Lot 15

**Fancy intense greenish yellow lime**

€900

0.19 Carat, Natural Fancy Intense Greenish Yellow Lime, Round Brilliant, SI1  
3.70 x 3.72 x 2.26 mm

Country of origin: Venezuela

Certificate: IGI

This round green diamond has an outstanding lime color. It possesses a good clarity and a strong fluorescence, which is a natural phenomenon observed in most lime diamonds. It is a good point because fluorescence enhances the stone's™s brightness. Thus it will stand out impressively in the sun or under black light.

**Estimate: 900**

**[Click to Bid](#)**

Lot 16

**Fancy intense orange**

€1100

0.20 Carat, Natural Fancy Intense Orange, Baguette, VS2

3.41 x 4.14 mm

Country of origin: South Africa

Certificate: IGI

Exquisite orange diamond step cut into a baguette. Step cuts are very rare in natural color diamonds because it diminishes the intensity of the color. The stone's™s unusual cut highlights its clarity, letting the facets reveal different tones of orange. This uncommon natural orange diamond looks like a clear apricot with a very modern, graphic shape. It is a wonderful fruity diamond that will look great by itself set in a ring.

**Estimate: 1100**

**[Click to Bid](#)**

Lot 17

**Fancy vivid orange**

€1100

0.19 Carat, Natural Fancy Vivid Orange, Marquise, SI1

5.17 x 2.78 x 2.18 mm

Country of origin: South Africa

Certificate: IGI

Outstanding marquise-cut orange diamond. This gorgeous wonder of nature has an extremely saturated pumpkin tone. The many facets of the diamond highlight its brightness, displaying endless sunny reflections. Diamonds of this color are highly in demand. Will look great in a tension setting.

**Estimate: 1100**

Lot 18

**Fancy deep orange**

€1450

0.35 Carat, Natural Fancy Deep Orange, Emerald, SI1

4.67 x 3.44 x 2.39 mm

Country of origin: Congo

Certificate: IGI

This orange diamond has a magnificent saffron tone, like an old whisky with a hint of honey. The emerald cut is very rare in natural color diamonds because it lowers the hue's intensity. The highly contrasted facets reveal numerous hues, covering a palette of yellow, orange, brown and gold. It could look stunning as a solitaire or surrounded by melee yellow diamonds.

**Estimate: 1450**

**[Click to Bid](#)**

Lot 19

**Fancy deep orange**

€1500

0.36 Carat, Natural Fancy Deep Orange, Marquise, VS1

3.63 x 6.46 x 2.58 mm

Country of origin: Congo

Certificate: IGI

Opulent cognac marquise cut diamond. This stone is typical of the deep orange natural color diamonds from Congo. The magnificent cognac hue of this diamond is very intense and complex. It is perfectly highlighted by the many facets of a beautifully proportioned marquise cut. Letting your eye travel in the stone, you will find red reflections as well as yellow and bright orange flashes.

**Estimate: 1500**

Lot 25

**fancy vivid green yellow**

€2300

0.19 Carat, Natural Fancy Vivid Green Yellow, Round Brilliant, VS1

3.67 x 3.76 x 2.19 mm

Country of origin: Venezuela

Certificate: IGI

The intense lime color of this outstanding round diamond is quite rare. Diamonds of this type are typical from Venezuela. Its intense tone comes from its strong fluorescence: in green diamonds, the more fluorescence, the more beautiful the color. Its glow will be particularly spectacular in the sun or under black light.

**Estimate: 2300**

**[Click to Bid](#)**

Lot 26

**Fancy deep brown pink**

€2300

0.26 Carat, Natural Fancy Deep Brown Pink, Round Brilliant, VS1

3.92 x 2.57 mm

Country of origin: Australia (Argyle)

Certificate: GIA
